## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see remarks (pages 13 and 14), filed 8/30/2007, with respect to claims 1, 9, 10, and 18 have been fully considered and are persuasive. The rejection of claims 1-18 has been withdrawn.

### ***Allowable Subject Matter***

2. Claims 1-18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

\* Independent claims 1, 9, 10, and 18 have been amended to overcome the rejection under 35 USC 101;

\* The present invention provides a new method and system for converting a gray-scale multiple pixel image to a binary image, which improves both in execution speed and accuracy over conventional methods (specification, page 5, lines 21-23).

Particularly, the new method and system comprise the following features, which the prior art taken either singly or in combination does not teach:

- steps b) and c) (independent claims 1 and 9);
- a program... to a second binary value (independent claims 10 and 18).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
